

***FASTAID ASPIRE-EDITION™
SNAKE BITE KIT***

Description

- Khaki rugged soft pack
- Ultra-tough portable case with strapping
- TGA registered no. 128314
- Splash resistant fabric and zippers
- Essential treatments for snake bites

The Aspire-Edition™ Snake Bite Kit is a must-have for those hiking or working in areas where snakes are common. It includes essential treatment items and features our Evo-Bandage, a latex-free compression bandage with indicators for easy and accurate application. This bandage is crucial for promptly restricting venom flow after a snake bite.

The kit also includes a full-color Snake Identification Sheet and an easy-to-follow Symptoms and Treatment Guide. These resources help users correctly identify snake species and administer appropriate treatment based on symptoms.

Designed for durability and convenience, the kit comes in a rugged khaki soft case with MOLLE strapping. It can be easily attached to backpacks, mountain bikes, or ATVs, ensuring accessibility during emergencies. Reflective tape and piping improve visibility in low light, while water-resistant fabric and zippers protect contents from moisture and dust.

In summary, the Aspire-Edition™ Snake Bite Kit combines practical medical supplies with informative guides, making it essential for anyone at risk of encountering snakes in their outdoor activities.
